

Jen & Vince out together again!

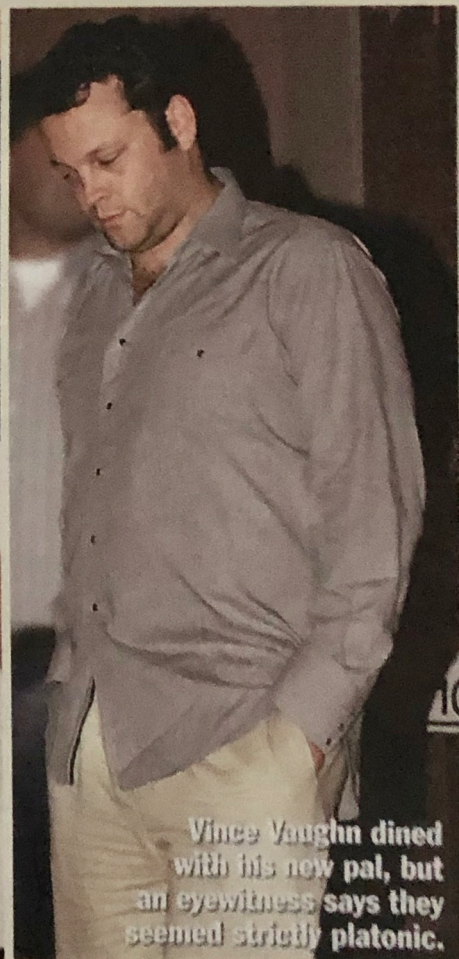

Jen leans on new pal Vince Vaughn and sparks more buzz about their friendship

She may have cried in her recent *Vanity Fair* interview, but Jen isn't sitting home alone these days. On Aug. 7, she and Vince Vaughn were spotted on a night out with a number of friends in the romantic Riverwalk section of Chicago, where they're filming *The Break Up* together. Jen signed autographs before entering Japonais, a high-end Japanese restaurant.

While it has been speculated that Jen and Vince are more than just friends, an observer reports that their rapport appeared strictly platonic. "They all seemed to be having a nice dinner together," said a spy. Jen indulged in a New York strip steak and a few items specially selected by the server.
