## Sandra's Pool Party

Who better to stand-in for a sultry summer photo than comely comedian Sandra Bernhard? M.A.C. thought so—the magnificent makeup company asked her to pose to promote its breezy, beautiful hues. Sandra was also kind enough to answer a few warm-weather questions:

### Do you have a pool?

**Sandra:** Like some people and relationships, pools are too high-maintenance—plus you have to add so many chemicals.

### Do you change your lipstick shade in the summer?

**Sandra:** I do a paler lip in the summer. A big outlined lip—I like that year 'round. Um, just kidding.

### What's the best thing about summer?

**Sandra:** The wonderful freedom of always being warm. I think there's nothing more luxurious. We agree!

## Lip Service

Red never felt so responsible! M.A.C.'s hot, hot, hot new Viva Glam IV lipstick shade is more than just a cool color—it's a charitable one, too. A whopping 100 percent of the profits from the lipstick go to benefit people affected by HIV/AIDS via the M.A.C. AIDS fund, which to date has raised more than \$23 million since 1994.

The new Viva

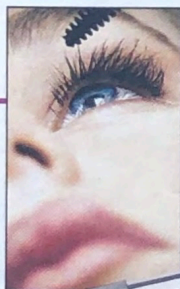

Glam shade is a frosted rose and gold shimmer, and with spunky spokespersons Elton John, Mary J. Blige and Garbage's Shirley Manson, this lush lipstick's sure to be a smash!

## Lash Out!

Bring out the best—and the tiniest—in your lashes! Maybelline's new Lash Discovery Mini-Brush Mascara gives you the little lash power you've always dreamed of with a small brush that allows you to coat those hard-to-reach lashes. Think about it: No clumping, no caking. Just light color and definition—what more could your eyes ask for?

## Hair of Paradise

What's hip in hair this season? Think wild, unique and expressive say hair experts at Wella. Hair color is bright—orange and black, possibly with strong panels of color mixed throughout. Hair style mixes loose structure with feathery ends. These looks show off hot bang trends (flipped-up fringe, brushed down or back) as well as the crisp colors that can make a hair style into a truly original creation!

*"When I was a teenager, I used to wear red lipstick and reapply every ten minutes. Bright, bright red lipstick and a lot of smudgy black eyeliner. I'm more into clean makeup now."*
